

# DIPLOMA | Warehouse & Inventory Management

By London City University

## Course Overview

Inventory is a fundamental business asset that takes up a large amount of cash. Proper scheduling and tools are required to make sure that enough inventory is used to meet a specific objective. Proper management delivers the tools considered necessary to utilize sufficient inventory to guarantee high levels of customer service, while avoiding unnecessary inventory levels that can cause loss for a business.

It covers various topics including policies, materials scheduling, procurement and the supply chain, warehouse, distribution, production actions, record correctness, warehousing efficiencies, and measurements, etc. Having warehouse and Inventory management certification is easy way to get good progress.
